If you need to lay flooring or construct anything before you unload into your booth, please carry these things in from the staging line before your vehicle enters the actual loading area or before you begin working with porters. This helps expedite set up for everyone. Please also move your vehicle from the loading area before setting up your booth so the next dealer on line does not wait longer than necessary. Porters are not here to set up your booth.

**Forklift:** The forklift will only be available on Tuesday, Wednesday and Sunday evening.

I will need a forklift for \_\_\_\_\_ pieces. Are these pieces on a pallet or crated? Yes No

Items over 300 lbs. should be on pallets or crated. Items under 300 lbs. don't necessarily need a forklift. Also note that the forklift has access limitations. The forklift cannot drive into the tents. You must move it from there with a dolly or a pallet jack.
